Diversity Survey

Wed, 10/24/2018 - 10:08 ? rpgrev

The survey should take less than 3 minutes to complete. This survey is a tool with a specific purpose. It is not intended to be a comprehensive survey of every minority group.

We want to find out if the composition of the membership reflects that of the Australian population. If a group is under-represented then we intend to initiate programs to introduce these people to the hobby and recruit them to the cooperative.

It is likely that the small number of survey responders will not match the Australian population's composition down to the smallest percentile. Our small committee cannot devote our limited time and resources to targeting very small groups. Therefore where a group makes up at least 20% of the Australian population it appears here. This unfortunately means that minority groups you might expect to see listed are represented only by "Other" categories and your optional written responses.

Our targets rounded to nearest 10% are given in parentheses.
